MELTING POINT METAL BUMPS AND PROCESS FOR  
PRODUCING SAME

Assistant Commissioner  
for Patents  
Washington, D.C. 20231

AMENDMENT  
AND  
RESPONSE TO RESTRICTION REQUIREMENT

SIR:

Kindly amend the claims of the above-identified  
patent application as follows.

Cancel claims 7-13, without prejudice.

REMARKS

This communication is in response to the Office  
Action mailed April 6, 2000.

FILED  
MAY 05 2000  
TECHNOLOGY CENTER 2000

The Office Action required restriction of the application to one of the following two groups of claims:

- I. Claims 1-7 and 14-15 drawn to a product.
- II. Claims 8-13 drawn to a process.

Claim 7 is a process claim and is believed to be properly in group II.

The applicants hereby elect, with traverse, the claims of group I, i.e., product claims 1-6 and 14-15, for further prosecution in this application.

This election is made with traverse because the present application is a national phase of PCT/JP97/02987. Therefore, PCT unity of invention rules apply. The applicants maintain that there is unity of invention among the claims of group I and group II under PCT unity of invention rules.

In order to advance prosecution, process claims 7-13 have been canceled by this amendment without prejudice to the filing of a divisional application directed to claims 7-13. Applicants intend to file a divisional application directed to claims 7-11.

An action on the merits is respectfully requested.

Respectfully submitted,

KENYON & KENYON
